

CURRICULUM VITAE

Personal

Full name: Peter Tomascik
Mobile: 50 12 29 16
Portfolio: <https://topeter.github.io/>
E-mail: tomascik.peter@gmail.com
Nationality: Slovak

Characteristics

- Comprehensive understanding of a software development from sketching to full launch. Able to coordinate and lead many technical and administrative activities in the project development.
- Driven by understanding the complexity of a new scale-up solutions from scratch, being open for input, continuous change and pivots
- Working with future product propositions for green field markets. Driving the development from idea generation, fast iterations, POC's to MVP
- Curious while continuously challenging the current state, effective in making research and finding solutions

I am organized person with a sense for a detail. New and challenging task is something what drives me, so there is more joy than pain in the process of learning. I like to cooperate with people, traveling, do all kinds of sports and outdoor activities.
